WAVEC SEMINAR
2018

WavEC Offshore Renewables organised its Annual Seminar 2018 in collaboration with the British Embassy in Portugal.

The event took place on the 4th of December in Museu do Oriente, Lisbon.

In this Seminar we presented major projects on offshore renewable energies and aquaculture and discussed the challenges, opportunities and lessons learned.

In the scope of the European funded project Oceanic, the WavEC Seminar explored how innovative techniques of surface protection can be applied to offshore infrastructures.

We also heard about the opportunities and challenges associated with the creation of two new organisations: the national collaborative laboratory, +Atlantic, and the AIR Centre (Atlantic International Research Centre).

Finally, we discussed synergies between infrastructures and the supply chain in Portugal and the UK, that enhance research, innovation and the development of new products and services.
B2B MEETINGS

5th December 2018
Ambassador's Residence

On the morning of the 5th of December B2B meetings (20 minutes) took place at the Ambassador's residence with participants from the UK, Portugal and other European countries. This event was organized also with the support of the British Embassy.

Entities with a table for meetings:

- Albatern
- ASM Industries
- Corpower
- EDP
- LOC Group
- Principle Power
- RISE
- WavEC
- Wave Energy Scotland
