

Management Policy

WavEC Management Policy is governed by the following 9 principles:

1. To ensure the satisfaction of its clients, fulfilling the requirements and expectations of all activities related to Marine Renewable Energies, Offshore Aquaculture and Ocean Engineering Solutions;
2. To comply with the legal requirements associated with the consultancy and research services performed;
3. To ensure the satisfaction of the Associates by complying with the provisions of its statutes and other regulations;
4. To comply with the requirements associated with being an entity of the National Scientific and Technological System, as well as an Interface Center;
5. Guide the relationships with its suppliers through a partnership logic, considering them an integral part of the Management System and maintaining an assessment and qualification of the services provided;
6. Involve all employees in the Management System, being attentive to their needs;
7. Adopt an approach of concern for economic, environmental and social impacts, as well as risks and incidents, in all activities, products and services;
8. To guarantee the security of information and the protection of personal data, safeguarding the rights and duties defined by the legislation;
9. To evaluate, systematically, the results of the implementation of the Management System, keeping all activities operating according to established procedures, continuously improving the System's effectiveness.

This policy is posted at WavEC office and is made available on the website to interested parties.
