

## POSITION FOR A RESEARCHER IN ECONOMICS WAVEC OFFSHORE RENEWABLES

### JOB DESCRIPTION:

WavEC Offshore Renewables is recruiting a professional to join the Economy & Business Development team. Successful applicant will conduct tasks related to ocean economics and financial analysis, with a particular focus on offshore renewable energies (ORE). This position offers an excellent opportunity to work in a vibrant multilingual environment, and to integrate a dynamic company with great conditions for career development and a large exposure to R&D projects, product development and services to industry, in a highly international framework. The successful applicant will work in a large range of subjects, with significant freedom to shape the development of the team's activity. Besides consultancy projects, the selected applicant will be responsible for ongoing activities within European and national public funded projects. The topics of the applicant's activity will include, but are not limited to, ORE micro- and macroeconomics, ORE resource assessment and site selection, socioeconomic impacts of ORE, as well as project feasibility and financial analysis. The activity will equally address the economics of other ocean activities, such as offshore aquaculture.

The successful applicant will report directly to the Head of Economy & Business Development, Dr. José Cândido.

WavEC Offshore Energy maintains an equal opportunities and diversity policy. Everyone with the relevant qualifications is encouraged to apply for this position.

### APPLICANT PROFILE:

We are looking for a professional

- with a background on or previous experience in economics and financial analysis, ocean engineering or metocean analysis/renewable energy resource assessment, in business or research context;
- motivated to work with new, innovative ocean technologies (marine renewable energy and offshore aquaculture), in the scope of R&D funded projects, product development and consulting services to national and international clients.
- We particularly welcome a professional with up to 5 years of experience.

### REQUIRED QUALIFICATIONS, SKILLS AND EXPERIENCE:

#### **Essential:**

- Master's degree in economics, industrial management, engineering, geophysics or related field;
- Good interpersonal and communication skills, with a teamwork attitude;
- Versatile and open-minded, with great level of autonomy and organization;
- Proficiency in English;
- Highly motivated, guided by excellence, innovation and ambition.

**Desirable:**

- Experience in economic and financial analysis;
- Experience in market and value chain analysis;
- Experience in business development;
- Experience and skills on metocean data analysis;
- Proven experience in consulting services or project management on the maritime or marine energy sector;
- Good knowledge of the marine renewable energy landscape;
- Experience and skills in macroeconomic analysis, database management systems and programming.

**DESCRIPTION OF THE EMPLOYER**

WavEC Offshore Renewables is a private non-profit organisation dedicated to the development and promotion of offshore renewable energy, through technical and strategic support to companies, R&D institutions and public entities. Since its creation in 2003, WavEC has focused its activity on R&D&I applied to offshore renewables (device design, monitoring and techno-economic optimization, environmental assessment, policy support and dissemination, among others), rapidly becoming an institution of reference across Europe.

**JOB OFFER DETAILS**

**Expected start date:** December 1, 2021

**Workplace:** The activity will be carried out at WavEC's premises in Lisbon.

**Employer:** WavEC Offshore Renewables

**Duration of employment contract:** 12-month contract, after which period a renewal will be evaluated.

**Remuneration:** Annual gross salary 11,200 € - 23,300 € (including meal allowance), depending on the applicant's profile and experience. Standard benefits include health insurance. Extraordinary benefits include performance bonus.

**Application deadline:** Applications should be submitted from October 13 to October 27. The results are expected to be released by the end of November, at the latest.

**APPLICATION PROCESS**

Applications must be formalized by sending the following documents: Curriculum vitae of the candidate, candidate's motivation letter, proof of professional experience and training, including letters of recommendation, as well as courses or internships undertaken.

Applications must be submitted electronically to [andrea@wavec.org](mailto:andrea@wavec.org) with the following text in the subject line: Job application for Economy & Business Development.
